Allowable Subject Matter

1. Claims 1-11 are allowed.

The following is an examiner's statement of reasons for allowance: The allowability of the claims resides, at least in part, in that closest prior art of record Kennedy et al. (U.S. patent 6,520,228) does not disclose or suggest, alone or in combination, operating a pusher to push a work piece along a processing path, automatically sensing an end of the work piece, determining the length of the work piece based on the position of the pusher when the end is sensed, automatically calculating a plan for optimal cutting of the work piece to fulfill cut list requirements, in combination with the other elements and features of the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
